

Ansteorra LoI dated 2010-11-21 ([Comment](#))

Unto Olwynn Laurel, Juliana Pelican, Istvan Wreath, and the rest of the College of Arms, does Jayme Dominguez del Valle, Bordure Herald, send greetings.

It is the intent of the College of Heraldry of Ansteorra to register the following items. Unless otherwise noted, the submitter has no desire for authenticity and allows any changes.

This is my first letter of intent for the College of Arms and Ansteorra. I'd ask that you all please bear with me if I've made any mistakes, I've checked the list twice, and hopefully there are no errors. I look forward to working with each of you and would like to thank my predecessor Alasdair for all of his hard work, and the amount of help he has given in assisting my transition into the office.

1: Aell die Wilde - New Name ([Correct](#)) ([Comment](#)) & New Device ([Correct](#)) ([Comment](#))

Per fess argent and azure, three candles in fess gules and an open book argent.

Submitter desires a feminine name.
Sound most important.
Language (15th C Dutch) most important.

Originally submitted as <Aell de Wilde>, the spelling of the surname was changed at kingdom to match submitted documentation.

<Aell> is documented from "Dutch Given names from 1573" By Aryanhwy merch Catmael (Sara L. Friedmann) located at <http://heraldry.sca.org/names/dutch/dutch1573.html>
It is listed under female given names, sn <Aeltgen> with 1 instance of <Aell> from Mordrecht.

<die Wilde> is documented from "15th Century Dutch Names" by Aryanhwy merch Catmael (Sara L. Friedmann) located at <http://heraldry.sca.org/names/dutch/dutch15surnames.html>

<Agnes> - From "Early 16th Century Scottish Lowland Names" by Sharon L. Krossa located at

Under Women's Given names, sn <Agnes> lists 25 instances of <Agnes> dating between 1503-1549.

<Turnbull> - Black sn <Turnbull> gives <Patrick Turnbull> in 1388.

Under a ruling appearing in the Oct 2001 Cover Letter, this is clear of presumption issues for combining name / similar armory to a real world person.

Argent, a bull's head erased sable--TURNBULL, Scotland for 1 CD from adding the annulet gules.

3: Cymme in kyrra - Resub Device ([Correct](#)) ([Comment](#))

OSCAR finds the name registered exactly as it appears in December of 2009, via Ansteorra.

Argent, on a chevron wavy azure, between three pine trees couped proper, a wolf's head cabossed argent.

Original submission was Argent, a chevron wavy azure between three pine trees couped proper, returned at Laurel in December of 2009: "This device is returned for conflict with the device of Nicolette de Saint-Denis, Argent, a chevron wavy throughout azure between three fleurs-de-lys vert. There is a single CD for the change of type of secondary charges, but no difference for changing the tincture from entirely vert to predominantly vert with a small touch of brown, and no difference between a chevron and a chevron throughout."

The addition of the tertiary gives a 2nd CD versus Nicolette de Saint-Denis.

Attached the title page and page linked to as images.

We realise that this is gray area timing on the byname. The submitter's original submission was for <Krüssen> but his submitted documentation was post-period atlases showing questionable spellings. <Krossen> was the closest we could come to the submitter's desired name indicating that he is from the town of <Krüssen>

Submitter desires a feminine name.
Language (Latin) most important.

Originally submitted as Ætheldreda de Dunbretane, the submitter consented to a change of the given name to <Etheldreda> as <Ætheldreda> would have been an unregistrable hybrid of latin and old-english, as noted in internal commentary.

The given name was originally documented with a report from St. Gabriel's which documented the name as a classical roman name, and created an unacceptable temporal disparity. The submitter was contacted and agreed to a change in documentation which did not alter his name in any way other than documentation, to resolve the disparity.
