An Index of Ansteorran Heraldic Submissions: 1993–2013

Jennifer Smith / Emma de Fetherstan

January 2013

This is an index of Ansteorran heraldic submissions. It can be used to find the status of some item or of all items from a group, to locate items that have been lost in the works, to find submission history when doing commentary, et cetera.

This index includes every item in an ILoI, ILoAR, or LoAR for a month in the inclusive range in the title. For items that appeared then but started life before the start date, their back history from earlier letters is also listed.

Nota bene! This is an index, NOT the set of original documents. Some errors doubtless exist. Please tell me when you find any. Ideally, you should use this to look up the real documents (the Armorial, LoARs, ILoARs, ILoIs) and confirm the information there. They may also explain *why* the action happened as it did. Check the Armorial for the registered spelling, date, and/or blazon, but remember that earlier entries may not show accented letters.

Nota bene! The names here are not guaranteed to be precise. When a name has its spelling changed at various stages, I have "normalized" it to the last spelling used.

This database and program were developed by Timothy A. McDaniel, SCA name Daniel de Lincoln. Minor updates to the program and current updates of the database were done by Jennifer Smith, SCA name Emma de Fetherstan. **Please contact us if you have questions!**

Jennifer Smith is at 601 S Washington #137; Stillwater, OK 74074-4534; e-mail: obelisk@ansteorra.org or jds@randomgang.com (backup e-mail addresses for Daniel: tmcd@jump.net or tmcd@us.ibm.com).

The Model and Terminology

A name or armory submission starts in an Internal Letter of Intent (ILoI) within a monthly issue of the Ansteorran Gazette (AG), the heraldic newsletter of the Ansteorran College of Heralds. About two months later, after commentary, a monthly kingdom meeting is held to rule on the ILoI. The results are announced in some month's AG as an Internal Letter of Acceptances and Returns (ILoAR). The accepted submissions are sent to Laurel Sovereign of Arms (Laurel) in a Letter of Intent (LoI). Four months later, after commentary, Laurel accepts (registers) or returns each one, as shown in the month's Letter of Acceptances and Returns (LoAR). There may also be errata corrections, pends of items for more information, or withdrawals of items.

The kingdom internal submissions herald may decide to "fast-track" acceptances and returns in simple cases, upon receipt deciding to send it immediately to Laurel or to "insta-boing" it. It is published in the fast-track section in the AG, with data like an ILoI entry but with a notation that it has already been sent to Laurel or returned. There is no commentary on these, and they are not discussed at a kingdom meeting.

Format

A traditional-style example may help.

? **".** Award name *for* Award of the Rising Star. fta 5/01 (AG 9/01) 3, ke 6/01, lr 9/01 (? transition fta to ke).

". Award name appeal to laurel *for* Award of the Rising Star. fta 9/02 1, la 1/03.

The award name "Award of the Rising Star" was fast-tracked ("fta": fast-track accept) directly to the Letter of Intent of May 2001 as item #3, also published in the September 2001 Ansteorran Gazette. Another mention of the item was also made on the June 2001 Letter of Intent, which is noted here as errata ("ke": kingdom errata). It was returned by Laurel ("lr": Laurel return) in the LoAR for the meeting of September 2001; I provide a link to the on-line Laurel letter for those who want to read Laurel's reasons. It was accepted at kingdom and then had an errata corraction. That is what caused the Anomaly flag: it's a "transition anomaly".

The name was appealed back to Laurel on the September 2002 Letter of Intent as item #1, and was accepted by Laurel ("la": Laurel accept) in the LoAR of January 2003.

Various flags can appear before an item.

? An anomaly of some sort may exist. There was a question mark in the database entry, or the item apparently made an odd transition in its processing. The reason is at the end of the entry. A transition error can be spurious, e. g. for name or device releases or transfers.

I The item is in progress.

P The last ruling was to pend it.

O It's overdue: it's in progress and some other item from its last letter (or later) has made progress.

An Ansteorran Gazette which is a "multiple month" issue, such as Aug-Sept-Oct 1994, is shown as the last month, here 10/94. ILoIs items are shown as, e. g., "1/93 4", the 1/93 ILoI, item number 4. The ILoI month is the month of the Ansteorran Gazette it appears in. Kingdom LoARs are shown as, e. g., "9/93 (AG 10/93)", meaning the kingdom College of Heralds meeting of 9/93, as reported in the Ansteorran Gazette of 10/93. Laurel LoARs are shown as, e. g., “4/94”, meaning the Laurel meeting for April of 1994; the date on the LoAR cover letter is ignored. The date of Laurel errata letters is given as that of the accompanying LoAR.

Keywords that can appear in an item's text:

iloi	ILoI entry	iloie	ILoI errata
fta	fasttrack advance	ftr	fasttrack return
fte	fasttrack errata		
ke	kingdom errata	le	Laurel errata
ka	kingdom advance	la	Laurel accept
kr	kingdom return	lr	Laurel return
kp	kingdom pend	lp	Laurel pend
kw	withdrawn at kingdom	lw	withdrawn at Laurel
done	done		

“Withdrawn” is used for withdrawals by the submitter, and for withdrawals by a herald to correct an error.

“Done” is for miscellaneous terminations. It's usually explained by a phrase in parentheses. It's mostly for pended devices that are resubmitted later, or for other superceded submissions.

About This Data

Ansteorran Gazettes occurred each month from 9/92 thru present, except for 12/92, 2/93, 4/93, 7/93, 5/94, 8/94, 9/94, 9/95, 8/00, 9/00, 12/00, 1/01, 3/01, 4/01, 5/01, and 6/01. All the AGs that were printed had ILoIs except 4/96, 1/00, 10/01, 1/02 and 2/02. Results of kingdom meetings were in all but 3/93, 7/94, 1/95, 3/95, 6/95, 7/95, 10/95 thru 12/95, 2/96, 3/96, 7/96, 8/96, 10/96, 1/00, 4/00, and 7/00 thru 2/01; kingdom acceptances were printed in 7/01 thru 12/01, but not kingdom returns. There was an extra letter from Star postmarked 15 August 1995 which included results but no ILoI; I call it “AG 8/95a”. Two corrections to the 10/95 ILoI were printed in the 11/95 AG: these two items I list as ILoI “11/95a”. One correction to the 8/99 ILoI was printed in the 9/99 AG; this item I list as ILoI “9/99a”. Four corrections to the 4/03 ILoI were printed in the 5/03 AG; these items are listed as ILoI “5/03a”.

Laurel LoARs occurred once in each month, though not all of them had Ansteorran actions. The Laurel letter dated “November 34, 1993” is deemed the 11/93 letter.

An Ansteorran Gazette which is a multiple-month issue, such as Aug-Sept-Oct 1994, is shown as the last month, here 10/94. Likewise ILoIs which combine several months, such as October-November 2000, are shown as the last month, here 11/00. ILoI items are shown as, e.g., “1/93 4”, the 1/93 ILoI, item number 4. The ILoI month is the month of the Ansteorran Gazette it appears in. Kingdom LoARs are shown as, e.g., “9/93 (AG 10/93)”, meaning the kingdom College of Heralds meeting of 9/93, as reported in the Ansteorran Gazette of 10/93. Fast-tracks, those items which skip the ILoI and go straight to the kingdom decision meeting, are generally also shown as the month in which the decision was made. Laurel LoARs are shown as, e.g., “4/94”, meaning the Laurel meeting for April of 1994; the date on the LoAR cover letter is ignored. The date of Laurel errata letters is given as that of the accompanying LoAR.

I used the last known name for each branch. If no branch name was shown for a submission, I used “unknown” or the branch for other items for the same submitter. The branch headings below use the current registered name, if any. The following branches had actions but now have a newer name, have a name that is currently not registered, and/or are apparently dormant or defunct: **Bisons Run** (was Heron's Keep; defunct; Bartlesville, OK), **Black Oak Keep** (defunct; Greenville, TX), **Bois d'Argent** (defunct, now a household; Conroe, TX), **Crossroads Keep** (now Crossrode Keep), **Cypress Hills** (defunct, merged into Rosenfeld; Longview, TX), **Desert Wyndes** (defunct; Pampa, TX), **Dùn an Locha Ruaidh** (now Loch Ruadh), **Dun Bruthainn** (and Dun Brodail et al; now Westgate), **Gryphon's Rooste** (defunct; Muskogee, OK), **Inis Feinics** (was Isle of the Golden Phoenix; absorbed back into Ravensfort; Cleveland, TX), **Loch Gaothach** (returned; defunct; Blanchard, OK), **Loch Raeburn** (defunct; Lufkin, TX), **Loch Wyndt** (unregistered; defunct; Marlow, OK), **Rathad Le An Caisteal** (Crossrode Keep; withdrawn), **Rivertree** (now Stonebridge Keep), **Rundel** (was Glomedal, Gnome Vale, Gnomon Vale; withdrawn; defunct; McAlester, OK), **Turris Animarum** (dormant 3/95; Austin, TX, Univ. of Texas, a college of Bryn Gwlad), **Turris Aquilae** (was Hillsfar Haven; dissolved into Adlersruhe; Burger, TX), **Twr Cath** (dormant 6/97?, Univ. of Houston, TX, college in Stargate).

Deficiency: Some items may be marked as pended or overdue when they've clearly been superceded. For example, if someone had a pended device and then submitted another, the first has been superceded. I've marked some I know about using the “done” action (declaring them done manually), but others have doubtless lasted.
